## **DETAILED ACTION**

### ***Response to Arguments***

In view of the Appeal Brief filed on 1/10/05, PROSECUTION IS HEREBY REOPENED. A Final office action responsive to the amendment filed on 3/22/04 is set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) request reinstatement of the appeal.

If reinstatement of the appeal is requested, such request must be accompanied by a supplemental appeal brief, but no new amendments, affidavits (37 CFR 1.130, 1.131 or 1.132) or other evidence are permitted. See 37 CFR 1.193(b)(2).

### ***Claim Rejections - 35 USC § 102***

Claims 1-18 are rejected under 35 U.S.C. 102(e) as being anticipated by US patent #6,636,249 (Rekimoto).

The applied reference has a common assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the

Art Unit: 2179

inventor of this application and is thus not the invention “by another,” or by an appropriate showing under 37 CFR 1.131.

- As for claims 1, 12: Rekimoto teaches a link information display device and corresponding method for displaying link information transmitted by a link information transmitter (see abstract; 8:50-60), comprising the means/steps of: video input means 21 for obtaining video signal of real space (6:65-66; 8:61-68), receiving means for receiving the link information comprising link content information and link position information wherein the link position information being virtual space position information (7:25-29, 58-61; 9:10-25; 12:53-56), display position determining means for determining a display position of the link content information on the basis of the link position information (7:63-8:1; 9:46), superimposing means for superimposing the link content information onto the video signal (8:5-15; 9:36-39), and display means 11 for displaying the superimposed video signal (8:1-3; 9:36-39). See also descriptions of figures 6, 13 and 22.
- As for claim 2: The image input means comprises camera 21 for imaging the image signal of an actual object (6:65-66; 8:61-68).
- As for claim 3: The image input means comprises an image signal reproducing device for reproducing the image signal stored onto an image recording medium (6:65-66; 8:61-68; 9:40-42).
- As for claims 4, 18: The device further comprises a storing means for storing the superimposed image signal (9:40-42).

Art Unit: 2179

- As for claims 5, 13: The device further comprises attribute detection means for detecting attribute information from the received link information (7:24-28, 58-61; 8:50-61).
- As for claims 6, 14: Link information can be selected based on detected attribute (7:34-39; 8:61-67).
- As for claims 7, 15: The device further comprises link position detection means for detecting link position information from the received link information (7:24-28; 8:50-61).
- As for claim 8: The device further comprises transmitter detection means for detecting the position of the transmitter in accordance with the received link information (9:20-25; 19:29-39; 20:17-43).
- As for claims 9, 10, 11, 16, 17: The device further comprises coordinate conversion means for determining a display position to display a link on the display means in accordance with the link position information (9:64 – 10:6; 26:36-67).

### ***Conclusion***

Applicant's amendment filed on 3/22/04 necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 2179

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
